Greenlee 22

SOLID-CENTER AUGER BITS

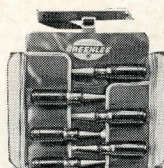

Bore *accurate* holes smoothly, quickly. Solid-center design gives extra strength and provides fast, positive chip clearance. Every GREENLEE 22 Auger Bit has accurately sized, perfect cutting edges that last through long use. Carefully heat-treated to assure uniformity. "Plastic Sealed" to reach you factory-sharp, eliminate costly stock maintenance. Available in 18 sizes: from 4/16" through 24/16".

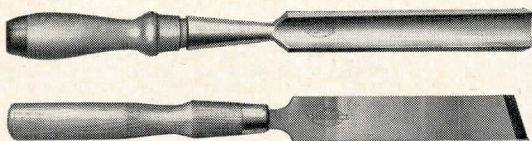

AUGER BIT SETS GREENLEE 22 Auger Bits attractively set-packaged in metal box, above left, holding 13 bits of sizes 4/16" to 16/16". Sets also packed in handy green plastic roll, above right, with transparent pockets — choice of 6, 8, 9 or 13 bit sets. Metal holding panel with 13 bits also available (not shown).

CHISELS Various types of tang butt, socket butt and firmer chisels. All are carefully balanced, easy to hold. Fully polished. Blades are bevel-edged and of special-analysis, selected tool steel that long retains its fine-cutting edge. Attractive green plastic handle provides comfortable, sure grip. (Also available with hickory handles if desired.)

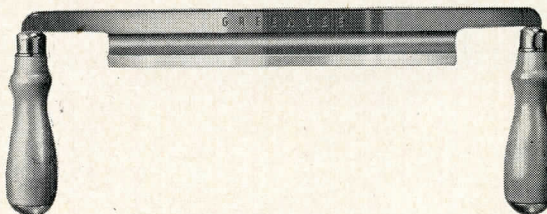

CHISEL SETS Sell GREENLEE Chisels in sets . . . in plastic rolls (above left) with 6 or 9 chisels, metal-edge boxes (center) with sets of 3 chisels, or fancy wood cases (above right) with 4 chisels. See Catalog 35-H for assortments of GREENLEE Chisels available in these attractive sets.

GOUGES AND TURNING TOOLS

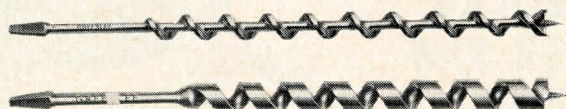

Gouges for all types of woodworking. Made of high-grade crucible steel. Socket firmer type with either inside or outside bevel. Selected hardwood handles. Fully polished. GREENLEE turning tools have completely hardened blades of tough alloy steel. Standard tools have 7" to 8" blades and 9" hardwood handles. Shorter tools are made especially for the home craftsman.

RAZOR-BLADE DRAWKNIVES

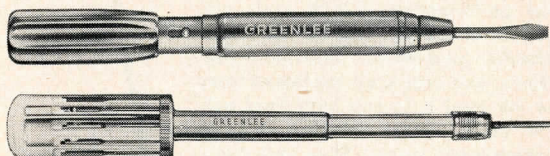

Conveniently light blade, yet substantially stiff and rigid to guarantee years of dependable service. Blade is 1-3/8" in width and constructed from a single solid piece of steel. Hardwood handles mounted on shanks. Highly finished, sharpened, ready for use.

hand tools for the woodworker

CAR BITS, SHIP AUGERS, DRILLS

Solid-Center, Single-Spur and Ship Auger Car Bits specially designed for general woodworking, pole, bridge, dock and other heavy wood construction. Ship Augers with or without screws, choice of polished twist or japanned hollow . . . various sizes. Bell Hangers' Drills of high-grade alloy steel heat-treated over all, in a variety of sizes and lengths (not shown).

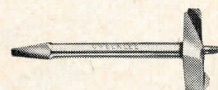

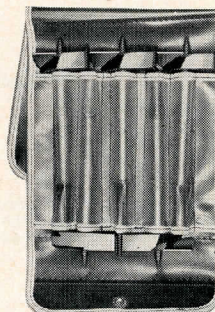

SPIRAL SCREW DRIVERS, AUTOMATIC PUSH DRILLS

GREENLEE Spiral Screw Drivers have smooth, fast action and perfect balance. All adjustments are simple, positive. Stand up under long, hard use. Enclosed model in small and medium sizes . . . open-spiral model in small, medium, large sizes. Automatic Push Drills have all working parts completely enclosed . . . handle holds drill points.

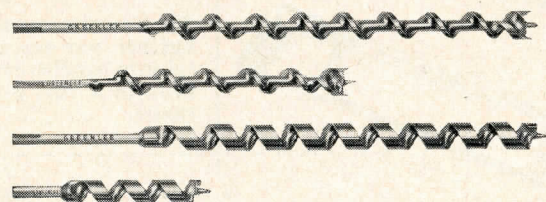

EXPANSIVE BITS, BIT EXTENSIONS

Fast, easy-boring Expansive Bits with wide, open throats for easy chip clearance. In two styles — Setfast and Plain, each made in two sizes. All parts accurately formed and carefully finished. GREENLEE Bit Extensions have positive lock which insures absolute grip on bit shank. In two sizes: No. 900 to drive bits up to 1", No. 925 to drive bits up to 2".

DOOR LOCK BITS

Available in five sizes from 1-5/8" to 2-1/8", GREENLEE Door Lock Bits handle practically every requirement for boring openings to accommodate all tubular-type door locks on the market today. In addition, they can also be used for various other shallow boring jobs where large-diameter holes are needed. Available singly or in complete sets of 5 as shown above.

ELECTRIC DRILL BITS

Specially designed for use in portable electric drills. Completely heat-treated for extra strength . . . shanks accurately machined for precise alignment of the tool . . . fine-quality steel. Line includes solid-center, ship auger, and single twist types — all in wide size ranges.
